Sir:

This communication is filed in response to the Notice of Allowance mailed March 22, 2007, and sets forth Applicant's comments, pursuant to 37 C.F.R. §1.104(e), on the Examiner's Statement of Reasons for Allowance accompanying the Notice of Allowance.

In the Notice of Allowance, the Examiner indicates:

The primary reason for the allowance of the claims is the inclusion of the limitation "...providing an oxidation barrier over the non-titanium layer and within the hole..." in claim 27 and "...siliciding the titanium layer by exposing the semiconductor substrate to TiCl_4 with a reactive gas and a carrier gas at a temperature about 400° C in a reaction chamber under a pressure of approximately 0.2 to 2 torr while an rf voltage is applied to the reaction chamber..." in claim 81 which is not found in the prior art references.

Applicants concur with the reasons as stated by the Examiner insofar as they comprise a summary, which is exemplary and not limiting. However, the scope of the claims is based on the actual language of the claims and equivalents thereof, and not on a paraphrase or summary of the claim language.

The Independent claims as allowed recite features and methodology in addition to, and in different language than, those described in the Statement of Allowable Subject Matter. Furthermore, the dependent claims recite elements in addition to those of the independent claims, which are also not reflected in the Statement of Allowable Subject Matter. Such additional elements, in combination with those of the independent claims from which each claim depends, provide additional reasons for patentability. Accordingly, the scope of the claims must be determined from the literal language of each as a whole, as well as all equivalents thereof.

Therefore, to the extent that the Examiner's reasons for allowance as stated are not relevant to, or wholly encompassing of, a particular claim, independent or dependent, Applicants assume that (pursuant to 37 C.F.R. §1.104(e)) the Examiner has determined that the record of the prosecution as a whole of the application makes clear the reasons for allowing those claims. Further, it appears, pursuant to M.P.E.P. 1302.14, that the Examiner's Statements of Allowable Subject Matter are not intended to encompass all of the reasons for allowance.
